into the hands of a receiver. That is the only way to protect the interest of depositors and the minority stockholders. Of course the customers of the bank will be temporarily inconvenienced, but the close of the bank was the only way to prevent further depredations. The Comptroller of the Currency will appoint a receiver, and all the facts in the case will be laid before the District Attorney to-day. There was no better bank in New York than the Sixth National, continued Mr. Tappen. It had \$2,000,000 of deposits and a large surplus, the whole of which was invested in first-class securities. The market value of its stock was about \$400 per share. Leland sold his stock of 1,035 shares out of the 2,000, however, at an enormous increase, receiving at the rate of \$650 per share for it. He was paid \$650,000 in round figures for his stock, and immediately on receipt of the money, which was paid in checks he turned over the stock and consequently the control of the bank to the purchase of his stock were conducted by George H. Pell. Leland was before the Clearing-House Committee yesterday and was pretty warmly scored by them for his very impolite conduct. He seemed to be much disturbed at the situation. There was also a very lively scene between the bank examiner and Classen when the former demanded the return of the abstracted bonds or their equivalent in money. Classen pretended to be entirely innocent of any wrong-doing in the matter, but could give no satisfactory explanation of his extraordinary act in trusting so large an amount of securities to a broker for sale, or, indeed, any reason for desiring

money. Classen pretended to be entirely innocent of any wrong-doing in the matter, but could give no satisfactory explanation of his extraordinary act in trusting so large an amount of securities to a broker for sale.

Early this evening A. B. Hepburn, the United States bank examiner who is in charge of the affairs of the Sixth National Bank, nade a statement of his examination up to that time. He said the missing bonds have not yet been found. Their parvalue is \$421,000 and the market value \$432,465. Upon that had been paid \$50,000, leaving a deficit on account of bonds of \$422,465. He has discovered in his examination that there is in the bank a loan of \$60,000 secured by \$303,000 of the Pountable Bank stock, Anolher loan of \$60,000 secured by \$303,000 of the Lebox-Hill Bank stock, and still snother loan of \$50,000 secured by \$80 shares of Equitable Bank stock, \$23,000 worth of the Empire Gas and Electric-Light Company's bond, \$11,000 stock of the St. Louis, New Orleans and Ocean Canal and Transportation Company of New Jersey, \$12,000 of Carolina Central second mortgages, and \$50,000 of Carolina third mortgages. The amount to be realized on these loans, he said, is problematical. They were, he said, very poorly sacured. In addition to these loans deplura found on hand \$88,000 in protested papers of Pell and others he alleged syndicate, of which amount is being a statement of the bank assets. Explura expects to complete his examination to night, and will at once make a section. After that is done the usual course of appointing a receiver will be pursued. The bank, has authorized him to state the will make good any deficit in the accounts of the depositors. The examination became to see that the depositors are in a dariger. Even if they were he said. THE BACE QUESTION.

Senator Vance addressed to-day the august body of which he is a member on the race question. It was a carefully-prepared speech and was full of side cuts at Ingalis and other Republicans who have been attacking the South. Mr. Vance had close attention from most of the senators on his own side of the chamber, but very few of the Republicans paid any attention. They were out of the chamber.

CHARLESTON, January 39.—The annual conference of the bishops of the African Methodist Episcopal Church met here today, eight bishops being present. The only business of interest transacted was the selection of Philadelphia as the place for the next conference. This revokes the previous action of the conference, which had appointed Seima, Ala., as the place, the objection to Selma being on account of race prejudices. The sessions are held in secret.

Pritishenon, Pa., January 30.—Shortly after midmicht last night an attempt was made to blow up the residence of Rev. Father Fleekinger, of St. Joseph's Roman Catholic church, of Mansheld, with dynamite. A cartridge had been placed in the cellar, to which was connected a fuse running to the outside of the building, from where it was highted. It is supposed the object was to kill Father Fleekinger, and he says he believes the attempt was the work of Anarchists. The walls of the residence were damaged to a considerable extent and all the windows were shattered. The floor of the parlor is badly torn up and all the furniture in the room was reduced to kindling wood. The report of the explosion was heard two miles away, and the concussion aroused all the inhabitants of Mansheld, many of whom turned out in might-clotnes. Two Killed in a Railroad Accident. Lampson gave notice that the case would be carried to the Supreme Court.

The Snow in the Sierras.

[By telegraph to the Dispatch.]

San Feancisco, January 30.—The following dispatch was received from Truckee this morning: Cascade cut was opened yesterday morning by five hundred snowshovellers, raising the blockade from Tunnel 13 westward. A wooden plow with seven engines started west from Truckee at 9 o'clock, carrying sixty snow-shovellers to remove the side between here and Tunnel 13. It met with almost unsurmountable difficulties on account of frozen snow. It is now less than four miles from town and has three miles farther to go before the road is clear. It is storming fearfully all along the line, drifting and blowing everywhere. Superintendent White went to Reno in the afternoon. The snow is drifting badly down the Truckee canon but no troutele is anticipated. Eight mailcars, containing nine days' west-bound mail, arrived from Reno Tuesday night. Three box-cars loaded with newspapers were left at Reno. A snow-side occurred last evening east of Verdi three feet deep and six hundred feet wide.

Sacramento, Cal., January 30.—Telegrams received last night indicate that fresh trouble with the blockade is anticipated on the Central Pacific, as snow is falling heavily on the Sierra mountains and filling the cuts which have just been cleared. A large force of shovellers is still at work. To Establish a Cotton-Factory. By telegraph to the Dispatch.]

Macon, Ga., January 30.—At Morgan, Calhoun county, yesterday, a crowd of 7,000 people, mostly negroes, gathered to witness the execution of Polk Newton, a negro murderer. Interference by the Governor, however, prevented the execution, but the crowd lingered in town and there was much drinking. In the afternoon a riot took place, in which the race lines were pretty strictly drawn. It was caused by a drunken negro striking a white child and the attempts of the town officers to arrest him. A great number of shots were fired, with the rusult that one white man was fatally wounded and three others seriously. The crowd disappeared and it is not known how many were injured, but none were killed. Whiskey was the cause of the trouble. Nominations Confirmed.
